QUADRATESH
DIAGNOSTICS

Improve your blocking agent, antibody specificity, enzyme activity with a BSA alternative: 5D Protein Stabilizer

- Liquid, sterile, highly purified 10% hydrolyzed porcine collagen peptide fraction
- No contaminating agents or proteins, no antigenicity
- High quality blocking agent – no unspecific binding
- Minimal lot to lot variation, no additional treatments
- Longer shelf life for your proteins and enzymes
- Protection of the biological activity of your proteins during lyophilisation, freeze-thaw cycles, urea, ethanol or heat treatment
- Manufactured by 5-Diagnostics, available in bulk

Article No.	Product name	Quantity
5D-82411S	5D Protein Stabilizer	50 mL
5D-82411A	5D Protein Stabilizer	100 mL
5D-82411B	5D Protein Stabilizer	1000 mL

For laboratory use only

QUADRTECH
DIAGNOSTICS

Your benefits with Aprotinin:

- Immediate, reversible inhibition of harmful protease activity in mammalian, bacteria, plant or yeast lysates or in coatings
- Removal of proteases, protection of proteins and enzymes in purification, assays and storage
- Manufactured by 5-Diagnostics, available in bulk

Enzyme Ki [M]	
Trypsin, bovine	6×10^{14}
Trypsinogen, bovine	1.8×10^6
Chymotrypsin, bovine	9×10^9
Plasmin, human	2.3×10^{10}
Kallikrein, pancreatic, porcine	1×10^9
Kallikrein, urinary, porcine	1.7×10^9
Kallikrein, urinary, human	0.9×10^{10}
Kallikrein, plasma, porcine	1×10^7
Elastase, human leukocytes	3.5×10^6
Urokinase	2.7×10^5

Article No.	Product name	Quantity
5D-62106	Aprotinin	250mg
