## INTRODUCTION TO QUADRATECH DIAGNOSTICS

### KNOWLEDGEABLE

We have 30 years of experience of supplying quality diagnostics products.

### HELPFUL

We have a committed, friendly and trustworthy team to help our customers.

### INNOVATIVE

We are dedicated to supplying state of the art diagnostics from industry leading manufacturers.

### DEPENDABLE

We operate quality management systems to ensure the quality of products supplied.

## WHO ARE QUADRATECH DIAGNOSTICS?

With 30 years trading experience, Quadratech Diagnostics Limited has always been committed to providing the highest quality state-of-the-art medical diagnostic and research products. Since 1990, we have expanded to encompass four main areas: Haemostasis, Bacterial Toxins, Rapid & POC Tests, and Parasitology.

We are a corporate member of the Institute of Biomedical Scientists (IBMS) and the British Society for Haemostasis and Thrombosis (BSHT). We are a recognised supplier to the UK National Health Service (NHS), the Irish Health Service Executive (HSE), private laboratories, the UK pharmaceutical industry and university research groups.

## PARASITOLOGY ELISA KITS

Bordier Affinity Products SA, a small biotech company located near Lausanne (Switzerland), has been developing and producing laboratory reagents and kits for the diagnosis of parasitic and mycologic infections since 1991.

We offer a range of CE marked Bordier Affinity Products SA laboratory ELISA kits for the diagnosis of parasitic and mycologic infections.

These ELISA kits specialise for the diagnosis of human toxocariasis, strongyloidiasis and and detection of both cystic and alveolar echinococcosis.

## KEY ADVANTAGES OF BORDIER ELISA KITS

- CE marked.
- Easy to use ELISA format, robust and easily automated.
- Unique assays from established high quality manufacturer.
- Confidence in results due to high sensitivity and specificity.
- Breakaway wells offer true cost efficiency.
- Quick, available and responsive customer service.
- Shelf life of upto 20 months.

**POPULAR KITS**

**STRONGYLOIDES RATTI**

**Product Code: 9450**

The kit provides all the material needed to perform 96 ELISA assays on breakable microtitration wells sensitized with Strongyloides ratti somatic larval antigens.

Parasitological diagnosis is often time consuming as Strongyloides larvae in the stool are frequently absent or present in very small numbers. The Bordier ELISA uses the structural similarities existing between S. stercoralis and S. ratti antigens to detect antibodies in human sera.

**TOXOCARA CANIS**

**Product Code: 9200**

The kit provides all the material needed to perform 96 ELISA assays on breakable microtitration wells sensitized with Toxocara canis excreted/secreted (E/S) larval antigens.

As the direct detection of larvae is not feasible in humans, a serological assay, on E/S antigens, is presently the most sensitive method available for the diagnosis of toxocariasis.

**ENTAMOEBA HISTOLYTICA EXTRA-INTESTINAL AMEBIASIS**

**Product Code: 9550**

The kit provides all the material needed to perform 96 ELISA assays on breakable microtitration wells sensitized with Entamoeba histolytica soluble trophozoite antigens.

The diagnosis of human amebiasis using the ELISA kit is intended for travellers returning from endemic areas and developing symptoms like abdominal pain, fever and hepatomegaly and to post therapeutic controls.

**BORDIER ELISA KITS AVAILABLE NOW**

Code	Product	Size
6100	Aspergillus Fumigatus	Kit of 96 tests
8100	Microsporidia	2 x 50 assays
9200	Toxocara Canis	Kit of 96 tests
9220	Toxocara Canis - E/S Antigens 1 Vial	1 Vial
9330	Echinococcus Multilocularis - Screening	Kit of 96 tests
9310	Echinococcus Multilocularis - Follow-Up	Kit of 96 tests
9350	Echinococcus Granulosus	Kit of 96 tests
9400	Acanthocheilonema Viteae	Kit of 96 tests
9450	Strongyloides Ratti	Kit of 96 tests
9500	Leishmania Infantum	Kit of 96 tests
9550	Entamoeba Histolytica Extra-Intestinal Amebiasis	Kit of 96 tests
9600	Schistosoma Mansoni	Kit of 96 tests
9650	Fasciola Hepatica	Kit of 96 tests
9700	Taenia Solium	Kit of 96 tests
9750	Trichinella Spiralis <b>NEW</b>	Kit of 96 tests
